Health and safety for our guests

Welcome to Fraunhofer IEE!

- Observe the fire protection regulations and safety signage posted throughout the campus (mandatory, prohibition and warning signs).
- Keep traffic and rescue routes, emergency exits and fire-fighting equipment clear at all times. Fire doors must be kept closed at all times.
- Smoking, open flames and fire are prohibited. Ask for designated smoking areas.
- Entry to laboratory areas and workshops is prohibited unless authorised by the laboratory manager and accompanied by IEE staff.
- Entry to the laboratories is prohibited
 - for persons with technical body implants (e.g. pacemakers or hearing implants)
 - for pregnant women
- Work carried out by external companies is subject to compliance with the IEE external company regulations and is performed in close coordination with the commissioning IEE contact person.
- Follow the hygiene recommendations.

In case of fire:

In case of fire

Call 112

Leave the building if an evacuation signal is given.

Do not use the lift during an evacuation.

Take the shortest route outside to the assembly point.

Follow the instructions of our fire protection assistants. Do not leave the assembly point until the person in charge on site gives the all-clear.

Observe the safety signage:

First aid equipment

Fire alarm

Defibrillator

Fire extinguisher

Escape and rescue plans, routes, emergency exits

Emergency notices
